Specification

The system has been assessed on a 50m long Woven Mesh Welded Mesh fence approximately 3000mm high was installed; this included a 135° change in direction. A 710mm short barbed taped concertina was fitted; this was supported on 2 No Galvanized line wires fixed to T bars fitted at each post.

The sensors are mounted on every second fence panel at a height of approximately 2.5 metres. The sensor cable is attached to the fence fabric with UPVC plastic cable tie wraps every 30cm and supplemented with stainless steel tie wraps
