Specification

The secondary glazing unit's design and installation method are summarised on the following documents available from the manufacturer:

S-0550-0020 (Revision AB, 19-022) – General arrangement.

DS-455 (Revision AB, 14/037) – Installation instructions.

The secondary glazing unit is a fixed light and therefore does not incorporate any openable element.

Specifiers and end users that deviate from the dimensions, glazing makeup or any other feature stated, do so at their own risk.
