

Gallagher Security (Europe) Limited

Command Centre + High Security Controller 6000

Category: Access Control Equipment

Sub Category: Automatic Access Control Systems

Standard Tested To: Automated Access Control
Systems v1.2 (June 2022)

Description

Gallagher Command Centre is an advanced physical security system, integrating access control, intruder alarms, perimeter and third-party systems into a single user interface with detailed reporting capability and scalability options. The High Security Controller 6000 enforces security policy set in Command Centre and reports on local security events, with authenticated and encrypted communications to connected sensors, alarm terminals and readers.
